

# E-Guides

Lead by example

This is to certify that

**Oriel Butcher**

has attended the E-Guides Plus Workshop  
on the

**12 May 2009**

Signed:

*J. Butcher*

E-Guide Trainer

E-Guides Plus workshops are designed as an extension of the three day E-Guides training programme and aim to develop the skills and knowledge that the core programme has introduced.

The workshops give participants an opportunity to:

- extend and refresh their skills
- create new resources and discover and re-purpose existing resources
- share experience and good practice with other E-Guides
- consider how to incorporate new ideas into cascade training.

Participants are encouraged to complete a reflective log throughout the day, defining their own objectives for the workshop, and considering their next steps at the end of the day.

\* Participation in an E-Guides Plus workshop may contribute to your 30 hour (or pro rata) CPD requirement provided you:

- critically reflect on what you have learned
- evidence how you have applied this to your practice
- evidence how this has impacted on your learners' experience and success.

The day consists of 7 hours contact time.

Please complete this record as your own focus for reflection on, and assessment of, the value you gained from the event and include in your CPD portfolio.

What were your personal objectives in attending this event?

To continue to share and collaborate with other e-guides.  
To find out about new opportunities.  
To take part 1 of the Level 3 ICT for education under exam conditions.

To what extent were they met?

All met.

What did you learn from attending this event?

New web tools and applications  
New sources of support + information.  
Achieved part one of the level 3.

How will you use what you have learned from this activity? Will you plan to carry out further learning in this subject area?

Progress to continue with Level 3 ICT for Education qualification  
Continue to cascade to colleagues.  
Share information + skills with colleagues + trainees.
